DETAILED ACTION

1. The amendment filed on July 26, 2006 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because it read on the non-elected invention of group III.
2. Newly submitted claims 58-64 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: they are directed to a polynucleotide and polypeptide with structural different from the previous elected polypeptide in group IV

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 58-64 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Interview Summery

An interview regarding this matter has been discussed with Attorney Deborah Katz on August 16, 2006. A suggestion of amending the claims to read on the originally elected invention has been proposed by the office in order to avoid the office action made Final. However, Applicants elected non-response for the previous office action by the time when this current office action was made after 5 days of the interview.

Conclusion

No claims are allowed.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1648

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
